Abstract

WE THE PEOPLE is deeply focused on creating a strong and loyal community and grow together, our project is a deflationary token to provide a fair distribution to all the PEOPLE involved in the project.

This means that on the long run your token becomes more valuable, every transaction burns supply and provides liquidity to the pool also rewards you for being loyal to our movement and community.

WTP ecosystem is built to be sustainable, totally decentralized and owned by the community.

Community that has a major role on the ecosystem and by that role we want to reward loyalty in two different ways, first is rewarding holders with tokens, the more you hold the more is your reward, second in every transaction made a percentage will go for the liquidity pool.

Therefore, an exponential growth.

WTP

Ecosystem

We, the people token is deflationary means that along the way will become more worthily as the 5% burn rate do his job.

Burn Mechanism on #WTP token will deflate itself in supply with every transaction

We, the people think that rewarding our community is an important part of the project so we decided to rise the bar and give to our holders 2% of each transaction executed on pancake swap.

2% fee auto distribute to all holders

We, the people protocol 3% fee from swap and transfers are automatically converted to the liquidity pool after the token count reaches a threshold. Liquidity is then managed by the contract as it is sold and paired accordingly.

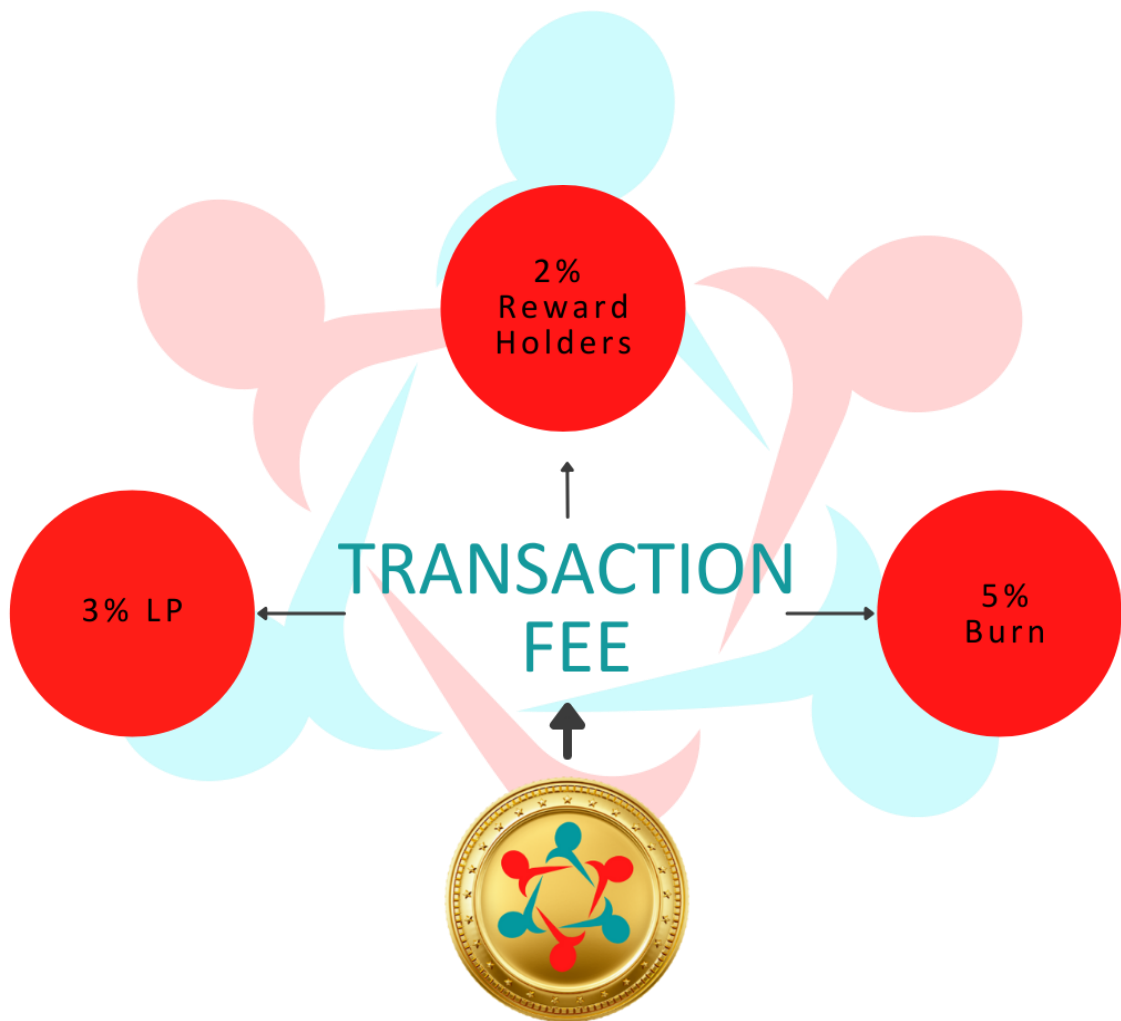

The auto-liquidity can be attributed toward an ever-growing market stability capable of absorbing large market activity.

3% fee auto add to the liquidity pool to locked forever when selling

Pre-sale

WTP's token will be listed first on PINKSALE in a public launchpad.

The presale will have the following parameters:

- Presale supply: 25.000.000 WTP
- Duration: 1 month
- Team Vesting: 1year (20% release per month after that period)
- Pre-sale vesting (33.33% release per month)
- Liquidity lock for 2 years
- Soft cap: 100BNB

Important note: After pre-sale finish the liquidity lock will be of 75% the remaining 25% will be directed to heavy marketing.

We are trying to build this from scratch and this 25% of the pre-sale is to pay influencers to spread the word and online publicity, our main goal is to become huge and massively known, and we believe everyone will gain from that.
